

# TEST FIXTURES

*Experts in providing quality test solutions for over 20 Years*

**Aspen Test Engineering, Inc.** specializes in complete in-circuit and functional test solutions to optimize your manufacturing productivity and reliability. Our extensive electrical engineering and mechanical design experience enable us to provide complete custom fixture services for complex circuit boards. Fixture solutions for **Teradyne / GenRAD** can include top and side access probing, LED detection, accommodation of dual-sided boards, custom vacuum covers and custom electronics. All fixtures pass a 100% point-to-point verification prior to shipment, using our automated verifier.

## CUSTOM FIXTURE ELECTRONICS

- ✓ Optical Sensors
- ✓ Frequency Measurements
- ✓ Opens Express and Framescan
- ✓ Relay Isolation
- ✓ Electro-Mechanical Devices
- ✓ Switch Actuators

Call **David Kufra** at **678.797.5566** or email [sales@aspentest.com](mailto:sales@aspentest.com) today to discuss your existing or future programming and fixture needs.
